With majority of employees being part of teams distributed across Poland it was the main ambition to create a set of comfortable spaces that would accommodate and integrate people having different workstyles. Non – standard office layout where the proportion of individual workstations to mobile and informal work areas is 50 to 50 responds to changing dynamics of everyday work and processes inside the company.

Employees can choose informal work settings such as brainstorming areas and spontaneous meeting areas, perform tasks at a desk or at quiet work areas or have a planned meeting in one of the conference rooms.

The space is integrating and innovative. Two sides of the open space are connected by a great informal area. Have a quick discussion on wooden stairs and proceed to spacious kitchen to relax and regenerate. Then join other colleagues at a projection room to watch new campaign.
